

**ASAP AND THE TARLOV CYST SOCIETY  
ARE ANNOUNCING A BRAND NEW,  
EXCITING PARTNERSHIP  
FOR EXPERT DIAGNOSIS & OPINIONS!  
WITH OUTSTANDING DISCOUNTS  
NEGOTIATED "EXCLUSIVELY"  
FOR OUR MEMBERS!**

We are so very excited to announce that after over a year of thorough research, trials with competitors and extensive negotiations, we are partnering with one of the premier consulting groups in the country, WelbyMD! WelbyMD offers access to the nation's leading board-certified, specialized radiologists, clinicians, dentists and surgeons!

So many patients have been misdiagnosed, left undiagnosed or searched desperately for highly skilled, sub-specialty trained, Board Certified Radiologists to receive that critical diagnosis and/or second opinion usually without success, while waiting many years, sometimes even decades, suffering needless, costly and oftentimes harmful treatments, procedures and surgeries. We know; we were among them. This is why we were so very methodical and exhaustive in our search to partner with and bring you, WelbyMD.

In our combined decades of experience, seeking a second opinion has either required or resulted in:

- 1) A physician's referral
- 2) Costs exceeding \$450-\$700 "per report"
- 3) Completion of numerous intake forms
- 4) Coordination with insurance
- 5) Lack of access to competently trained experts
- 6) An incorrect diagnosis and lack of effective treatment

**WelbyMD Offers:**

- 1) NATIONAL & GLOBAL ACCESS TO EXPERTS!
- 2) NO PRE-AUTHORIZATION & NO INSURANCE REQUIRED!
- 3) PRIVATE, OBJECTIVE DIAGNOSIS & OPINIONS!
- 4) CUSTOMIZED, DETAILED REPORTS!
- 5) OUTSTANDING DISCOUNTS!
- 6) ADDITIONAL CONSULTATION SERVICES!
- 7) AN EXPRESSED INTEREST IN RESEARCH!

**OUTSTANDING DISCOUNTS!**

Our patient/members receive an AMAZING 20% OFF of current retail rates using code: **WELBYMD20**  
And because WelbyMD is also dedicated to children, they're offering a 50% discount to our patient/members who are 18 years old and younger! Use code: **WELBYMD50**

**At WelbyMD:**

*"Our team of highly trained and experienced practitioners are passionate about helping people navigate the labyrinth that is the healthcare system. We provide top-tier, second opinion feedback, analysis and recommendations on imaging and ancillary test results including: MRI, CT, PET/CT, ultrasounds, x-rays and nuclear medicine studies. We follow-up expert reads with personal conversations designed to help you understand the findings, make informed decisions, and identify the best next steps for you. We have additional practitioners skilled in naturopathic and eastern medicine to provide holistic solutions."*

**THE ANSWERS YOU NEED FROM THE EXPERTS YOU  
DESERVE AT A PRICE YOU CAN AFFORD!**
